These next questions are about the food eaten in your household in the last 12 months and whether you were able to afford food.

I'm going to read two statements that people have made about their food situation. For each, please tell me whether the statement describes something that was often true, sometimes true, or never true for you and your household in the last 12 months. The first statement is:

"The food that (I/we) bought just didn't last, and (I/we) didn't have money to get more."

Was that often true, sometimes true, or never true for you and your household in the last 12 months?

The second statement is:

"{(I/We)} couldn't afford to eat balanced meals."

Was that often true, sometimes true, or never true for you and your household in the last 12 months?

Please tell me yes or no. In the last 12 months, did you or other adults in your household ever cut the size of your meals or skip meals because there wasn't enough money for food?

---
