NOTE: Each question in the CHIS questionnaires (adult, child, and adolescent) has a unique, sequential question number by section that follows the administration of the survey. In addition, the variable name (in the CHIS data file) associated with a question, appears in a box beneath the question number. Please consult the CHIS 2015 Data Dictionaries for additional information on variables, the population universe answering a specific question, and data file content.

These next questions are about the food eaten in your household in the last 12 months and whether you were able to afford food.

I'm going to read two statements that people have made about their food situation. For each, please tell me whether the statement describes something that was often true, sometimes true, or never true for you and your household in the last 12 months. The first statement is:

"The food that {I/we} bought just didn't last, and {I/we} didn't have money to get more."

Was that often true, sometimes true, or never true for you and your household in the last 12 months?
