

## Number of total Medicaid enrollees in California, 2003 (Preliminary results)

---

<sup>a</sup> No distinction between full and partial scope Medicaid. Includes non-institutionalized population only.

<sup>b</sup> NHIS data do not include imputation. This figure was obtained by multiplying the total adult population size with the proportion of those who reported 'covered by Medicaid' within the non-missing responses from the raw interview data.

<sup>c</sup> 'Yes with Medicaid information' and 'Yes without Medicaid information' categories in the final NHIS Medicaid variable were combined.

<sup>d</sup> NHIS data do not include imputation. This figure was obtained by multiplying the total adult population size with the proportion of combined 'Yes with Medicaid information' and 'Yes without Medicaid information' within the non-missing responses from the edited data.

<sup>e</sup> Excludes institutionalized enrollees.
