Notes

- ¹ Racial and ethnic categories are based on the Office of Management and Budget (OMB) Standards of classification: <http://www.census.gov/population/www/socdemo/race/Ombdir15.html>, unless otherwise noted.
- ² Other includes Native Hawaiian, Pacific Islander, American Indian, Alaska Natives and two or more races.
- ³ Other coverage includes: 1) Individually purchased private coverage; 2) Other public coverage that is not Medi-Cal or Healthy Families, such as AIM or MRMIP; and 3) Any combination of insurance types during the last year without a period of uninsurance.
- ⁴ Estimates exclude emergency room and urgent care visits as a usual source of care.
- ⁵ Serious Psychological Distress (SPD) is often used as a proxy measure for severe mental illness in a population. Adult respondents were asked 6 questions, known as the “Kessler 6”, to assess symptoms of distress during a 30-day period in the last year.
- ⁶ Age-adjusted to U.S. Standard Population in 2000.
- ⁷ Defined as ever diagnosed with asthma and reporting current asthma or an asthma attack/episode in the last year.
- ⁸ Excludes ever been diagnosed with gestational diabetes. Estimates were not age-adjusted because age-adjustment did not produce meaningfully different estimates.
- ⁹ Defined as body mass index (weight [kg] / height [m²]) greater than or equal to 30.0.
- ¹⁰ Defined as those who reported at least 30 minutes of moderate activity (excluding walking) for 5 or more days in the last week or those who reported at least 20 minutes of vigorous activity for 3 or more days in the last week.
- ¹¹ Excludes consumption of fruit juice and fried potatoes.
- ¹² Defined as having smoked at least 100 cigarettes in entire lifetime and currently smokes everyday or some days.
- ¹³ Defined as consuming four or more alcoholic drinks on one or more occasion for women and five or more drinks on one or more occasion for men at any point in the last year.
- ¹⁴ Defined as adults in the population who had difficulty reliably putting food on the table in the last year and were under 200% of the federal poverty level.
- ¹⁵ Defined as adults in the population who speak English less than very well. Question was only asked of those speaking a language other than English at home.
