

Nicole Maestas, PhD

Nicole Maestas is Acting Director of the Bing Center for Health Economics, Director of the Center for Disability Research, Manager of the Economics and Statistics Research Group, and a Senior Economist at the RAND Corporation in Santa Monica, CA. Dr. Maestas received her Ph.D. in Economics from the University of California at Berkeley, her M.P.P. from the Goldman School of Public Policy at UC Berkeley, and her B.A. from Wellesley College. Her research interests span health economics, retirement economics, and disability economics. Recent work, primarily funded by NIH and the Social Security Administration, has included studies of the effect of the Medicare program on disparities in health care utilization, treatment intensity, and mortality; work at older ages and its potential to ameliorate the economic effects of population aging; and the work disincentive effects of the Social Security Disability Insurance program. She is Director of the RAND Post-Doctoral Training Program in the Study of Aging and is a Professor of Economics at the Pardee RAND Graduate School of Public Policy, where she teaches a core course in Microeconomic Theory.
