AFRICAN AMERICAN	18.4%	6.9%

<sup>†</sup> FPL = Federal Poverty Level

\*\*\* The estimate is not statistically stable (coefficient of variation is over 30%).

Note: The "95% range" (more commonly called a "confidence interval") provides a more reliable estimate of the uninsured rate for persons in the population group than does the "point estimate." Point estimates with narrower 95% ranges are more precise or reliable than those with wider ranges.
