## EMPLOYMENT OPPORTUNITY

---

### Graduate Student Researcher

The UCLA Center for Health Policy Research is seeking a graduate student in Public Health, Public Policy, Biostatistics, or a related field to oversee data analysis, prepare data tables, and support report development to help disseminate methodological research from the California Health Interview Survey (CHIS).

This is an excellent opportunity for a graduate student to help collaborate and conduct survey data research, and support other CHIS-related analysis. Successful candidates will have strong analytical and organizational skills, detail-oriented, have experience writing technical and analytic reports, and will have knowledge of survey methods and statistical concepts.

#### Responsibilities:

Duties will include research assistance through literature searches, data management, statistical analysis, and report writing for California Health Interview Survey (CHIS) projects. The position will include working with the CHIS Data Quality and Survey Methodology Manager, senior researchers and graduate research assistants.

#### Qualifications:

- Professional or academic background in survey research, public health, public policy, biostatistics, or related field.
- Demonstrated ability to work with large data sets using statistical software packages (e.g., SAS, Stata, SPSS, R)
- Familiarity with survey data and statistical methods.
- Strong computer skills and experience working with Microsoft Office software.
- Good communication, research, and organizational skills.
- Detail-oriented and ability to work independently and work well with others.

#### Other details:

This position is available immediately. GSR salary level commensurate with education and experience.

#### How to Apply:

Please submit your cover letter, resume, and a writing sample (including data analysis) to Brian Wells, PhD at [bmwells@ucla.edu](mailto:bmwells@ucla.edu).
