Questions in the teen survey are a lot like the ones you are answering, but it is much shorter. It covers a range of health issues including general health, diet, exercise, and other healthy and unhealthy habits like smoking and drinking alcohol, and using drugs. There are also some questions about bullying, violence, and sexual behavior. There are a few questions about suicide thoughts or attempts because it is such a serious health concern. We provide counseling and support information for any teen in need.

Your teen can skip any question they want or stop the survey at any time.
