Medi-Cal Eligibility under ACA Health Insurance Expansion¹

by US Congressional District, Non-elderly age 0-64, CHIS 2009

Prepared by the UCLA Center for Health Policy Research, October 2012

District Type	District Number	Number Impacted	Percent	Lower CI	Upper CI	Compared to State
US Congressional	45	18,000	2.8%	0.7%	4.9%	lower
US Congressional	46	181,000	28.7%†	17.5%	40.0%	higher
US Congressional	47	90,000	12.1%	4.6%	19.6%	
US Congressional	48	17,000	2.8%	0.8%	4.7%	lower
US Congressional	49	62,000	9.8%	2.9%	16.7%	
US Congressional	50	40,000	6.5%	2.0%	11.0%	
US Congressional	51	61,000	10.1%	7.4%	12.8%	
US Congressional	52	25,000	4.0%	1.1%	6.9%	lower
US Congressional	53	48,000	7.4%	4.9%	9.9%	

Notes:

¹ Medi-Cal Eligible is defined as the percent of non-elderly (0-64 years) who were uninsured all or part year and are eligible for health insurance coverage under Medi-Cal Expansion that will be created in 2014 as part of the Affordable Care Act (ACA).

† Estimate should be interpreted with caution because it is either unstable (coefficient of variation ≥ 40%) or it has a wide confidence interval (> 20 percentage points).

Lower and Upper CI denotes 95% confidence intervals for every calculated estimates. This means that the actual value lies between the lower and upper range.

Compared to State denotes estimates of districts that are significantly higher or lower than the overall California estimate.

Source: 2009 California Health Interview Survey (CHIS). Boundaries for legislative districts were approximated using 2010 Census tracts.
