US Congressional	52	46,000	6.8%	4.2%	9.4%	
US Congressional	53	43,000	6.4%	4.4%	8.4%	

Notes:

<sup>1</sup> Current asthma is defined as ever diagnosed with asthma and reporting current asthma or an asthma attack/episode in the last year.

**Lower and Upper CI** denotes 95% confidence intervals for every calculated estimates. This means that the actual value lies between the lower and upper range.

**Compared to State** denotes estimates of districts that are significantly higher or lower than the overall California estimate. Blank cells denote no significant difference.

Source: 2011-2012 California Health Interview Survey (CHIS). Boundaries for legislative districts were approximated using 2010 Census tracts.
