Notes:

¹ Medi-Cal Eligible is defined as the percent of non-elderly (0-64 years) who were uninsured all or part year and are eligible for health insurance coverage under Medi-Cal Expansion that will be created in 2014 as part of the Affordable Care Act (ACA).

† Estimate should be interpreted with caution because it is either unstable (coefficient of variation $\geq 40\%$) or it has a wide confidence interval (> 20 percentage points).

Lower and Upper CI denotes 95% confidence intervals for every calculated estimates. This means that the actual value lies between the lower and upper range.

Compared to State denotes estimates of districts that are significantly higher or lower than the overall California estimate. Blank cells denote no significant difference.
