CA Assembly	80	126,000	29.5%	23.7%	35.4%	higher

Notes:

<sup>1</sup> Uninsured anytime in 2011-2012 is defined as the percent of the non-elderly (0-64 years) who were without insurance at any point during the past year.

**Lower and Upper CI** denotes 95% confidence intervals for every calculated estimates. This means that the actual value lies between the lower and upper range.

**Compared to State** denotes estimates of districts that are significantly higher or lower than the overall California estimate. Blank cells denote no significant difference.

Source: 2011-2012 California Health Interview Survey (CHIS). Boundaries for legislative districts were approximated using 2010 Census tracts.
