US Congressional	53	119,000	20.0%	15.4%	24.7%	

Notes:

¹ Uninsured anytime in 2011-2012 is defined as the percent of the non-elderly (0-64 years) who were without insurance at any point during the past year.

Lower and Upper CI denotes 95% confidence intervals for every calculated estimates. This means that the actual value lies between the lower and upper range.

Compared to State denotes estimates of districts that are significantly higher or lower than the overall California estimate. Blank cells denote no significant difference.

Source: 2011-2012 California Health Interview Survey (CHIS). Boundaries for legislative districts were approximated using 2010 Census tracts.
