## Notes

- <sup>1</sup> To obtain a representative sample and produce one-year estimates, 22,580 randomly selected adults in California participated in
- <sup>2</sup> Racial and ethnic categories are based on the Office of Management and Budget (OMB) definitions used in the 2010 Census. For more information, see: *2010 Census Briefs*, issued March 2011. Retrieved December 18, 2012: <http://www.census.gov/prod/cen2010/briefs/c2010br-02.pdf>
- <sup>3</sup> Other Race includes Native Hawaiian, Pacific Islander, American Indian, Alaska Natives, any other race and two or more races.
- <sup>4</sup> FPL is the Federal Poverty Level. Poverty estimates for CHIS 2011 have been weighted to the 2010 Current Population Survey and are not comparable to estimates from previous CHIS cycles.
- <sup>5</sup> Other coverage includes: 1) Individually purchased private coverage; 2) Other public coverage that is not Medi-Cal or Healthy Families, such as AIM or MRMIP; and 3) Any combination of insurance types during the last year without a period of uninsurance.
- <sup>6</sup> Estimates exclude emergency room and urgent care visits as a usual source of care.
- <sup>7</sup> Serious Psychological Distress (SPD) is often used as a proxy measure for severe mental illness in a population. Adult respondents were asked 6 questions, known as the “Kessler 6”, to assess symptoms of distress during a 30-day period in the last year.
- <sup>8</sup> Age-adjusted to the 2000 U.S. Standard Population.
- <sup>9</sup> Defined as ever diagnosed with asthma and reporting current asthma or an asthma attack/episode in the last year.
- <sup>10</sup> Excludes ever been diagnosed with gestational diabetes. Estimates were not age-adjusted because age-adjustment did not produce meaningfully different estimates.
- <sup>11</sup> Defined as body mass index (weight [kg] / height [m<sup>2</sup>]) greater than or equal to 30.0.
- <sup>12</sup> Defined as those who reported at least 150 minutes of walking for transportation or leisure in the last week.
- <sup>13</sup> Excludes consumption of fruit juice and fried potatoes.
- <sup>14</sup> Defined as having smoked at least 100 cigarettes in entire lifetime and currently smokes everyday or some days.
- <sup>15</sup> Defined as consuming four or more alcoholic drinks on one or more occasion for women and five or more drinks on one or more occasion for men at any point in the last year.
- <sup>16</sup> Defined as adults under 200% of the federal poverty level who had difficulty reliably putting food on the table in the last year, out of entire population.
- <sup>17</sup> Defined as adults who speak English less than very well out of the entire population. The question was asked only of those who speak a language other than English at home.
