ABOUT THE SMOKEFREE MULTI-UNIT HOUSING PROJECT

The UCLA Center for Health Policy Research in partnership with the Los Angeles County Department of Public Health evaluates smokefree multi-unit housing throughout the City of Los Angeles. The Evaluation assesses exposure to secondhand smoke in multi-unit housing, knowledge of the harms of secondhand smoke, and the level of support for protections against secondhand smoke exposure in multi-unit housing. This report includes data from surveys conducted in 12 City Council Districts in 2019. Council Districts 8, 9, 10 were surveyed previously in a 2015 CDC supported study. The report is available from the Center at http://healthpolicy.ucla.edu/publications/search/pages/detail.aspx?pubID=1484. Project Partners: Apartment Association of Greater Los Angeles, Fame Corporations, Day One, and Koreatown Youth Community Center.
