## Older Adults and Adults With Disabilities in California Struggle to Make Financial Ends Meet

Lei Chen and Kathryn G. Kietzman

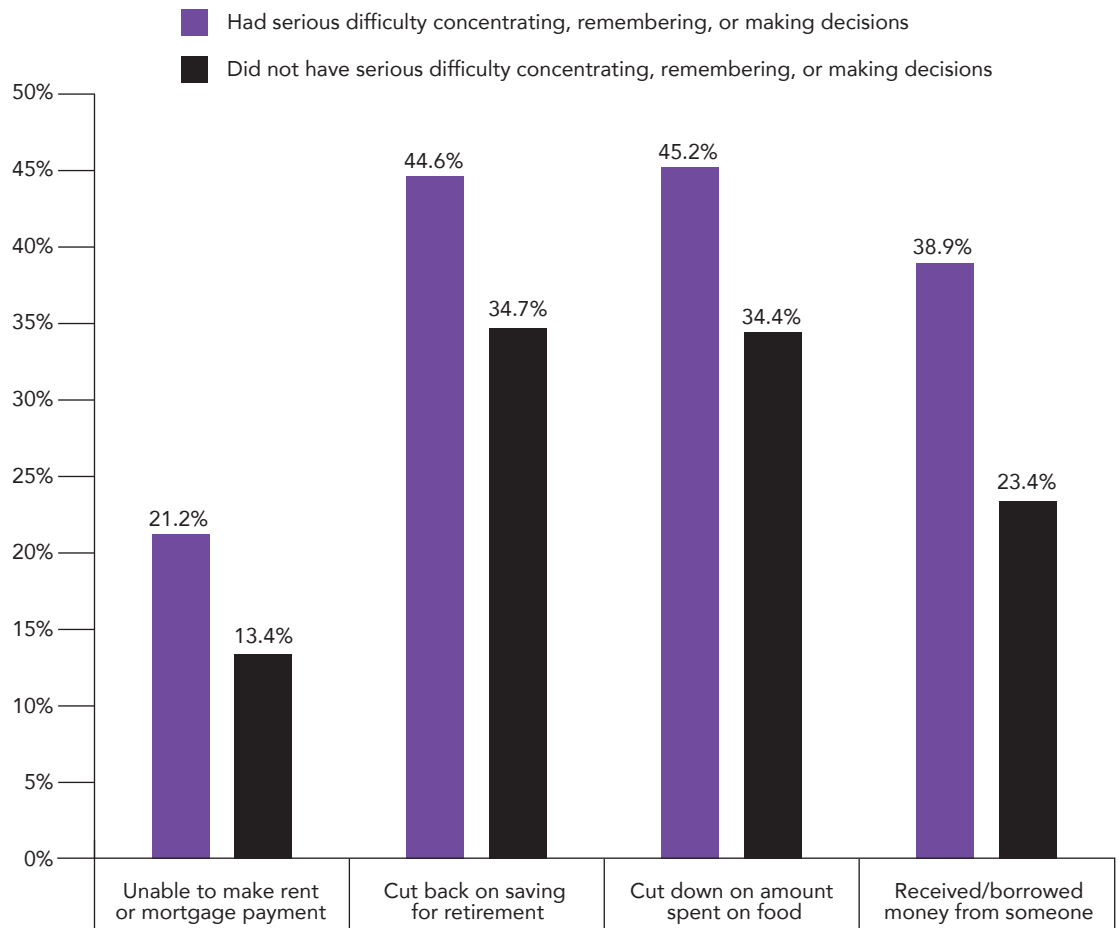

### Appendix

**Appendix Exhibit 1A** Percentage of Older Adults and Adults With Disabilities Experiencing Financial Difficulties by Age, California, 2019–20

Source: Authors' analyses of 2019 and 2020 California Long-Term Services and Supports (CA-LTSS) Survey. CA-LTSS is a follow-on survey of the California Health Interview Survey (CHIS) and included 2,030 respondents with LTSS needs.

**Appendix Exhibit 2A**    **Percentage of Older Adults and Adults With Disabilities Experiencing Financial Difficulties Because of Serious Difficulty Concentrating, Remembering, or Making Decisions, California 2019–20**

Source: Authors' analyses of 2019 and 2020 California Long-Term Services and Supports (CA-LTSS) Survey. CA-LTSS is a follow-on survey of the California Health Interview Survey (CHIS) and included 2,030 respondents with LTSS needs.

**Appendix Exhibit 3A** Percentage of Older Adults and Adults With Disabilities Reporting Financial Worries by Age, Income, and Employment Status, California, 2019–20

Source: Authors' analyses of 2019 and 2020 California Long-Term Services and Supports (CA-LTSS) Survey. CA-LTSS is a follow-on survey of the California Health Interview Survey (CHIS) and included 2,030 respondents with LTSS needs.

Notes: The data represent responses from individuals who reported being very or somewhat worried that their income is not sufficient to meet living expenses. "Total" refers to the overall average of respondents who had financial worries.
