

The Elder Economic Security Standard™ Index for California, 2009

County Amounts, Comparisons, Components, Options and Supporting Data

**Prepared by: D. Imelda Padilla-Frausto, MPH
Steven P. Wallace, Ph.D., and Eva Durazo, MPH**

September 2010

In collaboration with the Insight Center for Community Economic Development,
Oakland, CA

Based on the methodology originally developed by the Gerontology Institute, University of
Massachusetts-Boston and Wider Opportunities for Women

Funding for this report provided by The California Community Foundation, The California Endowment, The
California Wellness Foundation, County of Los Angeles Community Senior Services, Insight Center for
Community Economic Development, San Diego Department of Aging and Independence Services, and
UC-Program on Access to Care

This report is part of the California Elder Economic Security Initiative™ program (Cal-EESI) which is led by the Insight Center for Community Economic Development, Oakland, California, with the guidance of a statewide steering committee. Cal-EESI is part of a national initiative led by Wider Opportunities for Women (WOW), Washington, DC, which holds the trademarks for the terms Elder Economic Security Initiative program, Elderly Economic Security Standard Index, EESI, and Elder Index. The national methodology was developed by the Gerontology Institute at UMass-Boston in collaboration with WOW. The UCLA Center for Health Policy Research used the national methodology to model the data for California.

Wider Opportunities for Women

Elder Economic Security Standard™ Index California Counties, 2009

Elder Index Per Year, Annual Comparisons, and Basic
Monthly Expenses for Selected Household Types

Elder Economic Security Standard™ Index

Explanation of the tables

Elder Index Per Year

Income Needed to Meet Basic Needs

The Elder Economic Security Standard Index is the basic income needed to make ends meet for retired persons ages 65 and older. It reflects actual costs at the county level and varies by housing type and health status. The annual amounts shown are for individuals and couples who own their residences (with and without a mortgage) and who rent. The amount shown is for elders in good health (the median health status).

Annual Comparison Amounts

Federal Poverty Guideline (2009 DHHS)

% of Federal Poverty

[Elder Index divided by (/) Federal Poverty Guideline]

The Federal Poverty Guideline is used to calculate income eligibility by many public programs. For example, the Medicare Prescription Drug benefit's Low Income Subsidy (LIS or "extra help") is available to recipients with incomes under 150% of poverty. The data shown is the amount the guideline needs to be raised in this county to accurately identify those without adequate incomes as determined by the Elder Index.

SSI Payment Maximum California, 2009

Income Gap

[SSI Payment Maximum minus (-) Elder Index]

The SSI Payment Maximum for California is the maximum income provided by the state's Supplemental Security Income program for low-income elders with almost no assets. The data shown is the gap between the maximum SSI payment and the amount needed to cover basic costs according to the Elder Index.

Median Social Security Payment 2009

Income Gap

[Median Social Security Payment minus (-) Elder Index]

Half of Social Security recipients have benefits under this amount in this county. The data shown is the gap between the median social security payments in this county and the amount needed to cover basic costs according to the Elder Index.

Basic Monthly Expenses Used to Calculate Elder Index

Monthly Expenses

Housing
Food
Transportation
Health Care (Good Health)
Miscellaneous @ 20%
Elder Index Per Month

The Elder Economic Security Standard Index is calculated using data on the basic costs of living for older adults in each county. Owners' costs include mortgage (if any), taxes, insurance, and utility expenses. Food costs are based on the USDA's low-cost food plan for meals eaten at home, adjusted for county cost variations. Transportation includes local automobile use. Health care includes out-of-pocket health care costs and premiums for an elder in good health. For elders in fair or poor health, out-of-pocket costs increase by \$30/month; for excellent or very good health costs decrease by \$25/month. Miscellaneous costs cover expenses not included elsewhere, such as nonprescription medicines, cleaning products, household items, personal hygiene items, and telephone.

The California Elder Economic Security Initiative™ program is led by the Insight Center for Community Economic Development as part of a national program headed by Wider Opportunities for Women (WOW). The UCLA Center for Health Policy Research modeled the Elder Economic Security Standard Index for California counties using the national methodology developed by the UMass-Boston Institute of Gerontology and WOW.

Yuba (4)	\$355	\$1,347	\$568

Note: Ownership amounts are median values for households with a person age 65 or over. In the 2006-08 ACS, 40% of households with an older adult owned their home free and clear, 37% owned with a mortgage, and 21% paid rent (the balance had other arrangements).

Note: The following counties were combined in the U.S. Census ACS data

- (1) Del Norte, Lassen, Modoc, Siskiyou
- (2) Colusa, Glenn, Tehama, Trinity
- (3) Nevada, Plumas, Sierra
- (4) Sutter, Yuba
- (5) Monterey, San Benito
- (6) Alpine, Amador, Calaveras, Inyo, Mariposa, Mono, Tuolumne
- (7) Mendocino, Lake

Source: U.S. Bureau of the Census, 2006-2008 American Community Survey (ACS)

* County totals do not equal 100% because some elders report "other" housing arrangements.

Note: The following counties were combined in the U.S. Census ACS data

- (1) Del Norte, Lassen, Modoc, Siskiyou
- (2) Colusa, Glenn, Tehama, Trinity
- (3) Nevada, Plumas, Sierra
- (4) Sutter, Yuba
- (5) Monterey, San Benito
- (6) Alpine, Amador, Calaveras, Inyo, Mariposa, Mono, Tuolumne
- (7) Mendocino, Lake
